

Lecture 7

- AY Reminder : Start twitch.tv stream

Daily Model Gallery Review

- [Gallery link](#)

Announcements

- Short lecture today (another class needs the room at 3:00pm EST).
- [The first CG model in history– a hand](#). We have it pretty good these days, if one ignores the pervasive competition and market saturation (Catmull didn't have mature tech, but he didn't have any competition either).
- [Viewport vs Render](#) : In certain circumstances it really does matter.
- Historically, why is blender open source : <https://www.youtube.com/shorts/A2IrUz7Ko7I>
- Old games had impressive optimization techniques. Notice anything interesting in [these clips?](#)

Fixing Armatures (60 min)

- Demo : Control Bones for IK (IE, what I failed to do last lecture and regretted it come time for animation).
 - [Success video](#)
- Demo : When “automatic weights” goes wrong (overlapping-verts errors and undesirable weights).
 - [Downloadable starting point](#).
- Demo : Bone naming (.R vs .L) and symmetrize

Daily 20-minute Model (30 min)

- 20 minutes for production
- 10 minutes for upload to sketchfab
- Post in discord server and [in this form](#)
