5. Market Size
6. Competition
7. Competitive Advantage
8. The Product
9. Traction
10. Business Model
11. Basic Financial Forecast
12. Other Investors
13. Use of Funds
14. Who is Involved
15. Closing

The Uber Pitch

UberCab

Your ride to the future, and it's a tap away
Anywhere, anytime

The Concept

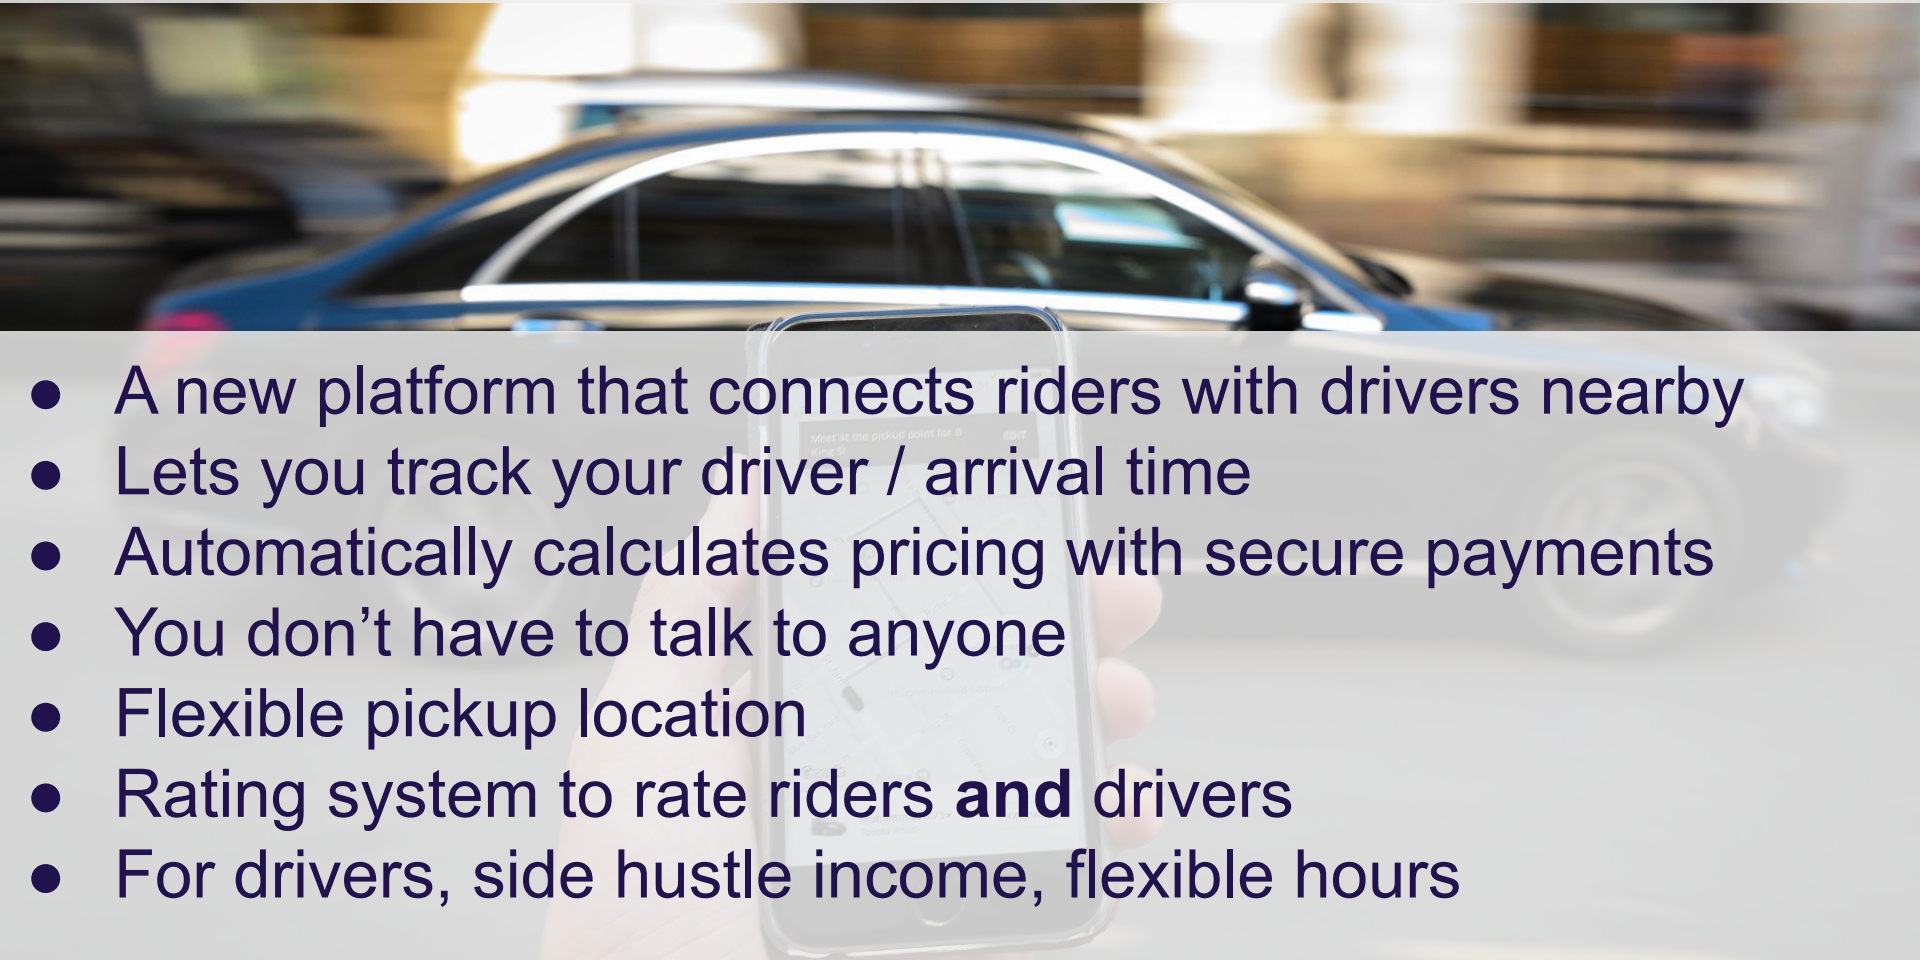

- On-demand taxi service (no waiting)
- Taxi in any city, any time
- App that allows drivers and riders to connect with each other

The Problem

- Too drunk to drive, and need a ride
- No public transit alternatives
- For drivers - need extra cash
- Not enough parking
- Unpredictable pricing of taxis
- No feedback on taxi location, unpredictable wait times, waiting in line for a taxi

The Solution

- A new platform that connects riders with drivers nearby
- Lets you track your driver / arrival time
- Automatically calculates pricing with secure payments
- You don't have to talk to anyone
- Flexible pickup location
- Rating system to rate riders **and** drivers
- For drivers, side hustle income, flexible hours

Market Size

- 140M people commute in the US alone (20% don't have access to public transportation)
- 8% of workers carpool today
- **Uber riders:** travelers, getting to social events
- **Uber drivers:** Car owners w/ part-time jobs (~27M)
- 10 rides per day, 100 days a year
- Avg cost of a cab ride \$30
- Uber's estimated SAM: \$202B

The Competition

Most comfortable, safe and easy to use

- Limos
- Private jets

- UberCab

Most Expensive

Most reasonably priced

- Commercial Planes
- Taxis

- Walking / biking
- Friends / rideshare
- Public transportation

Least comfortable, safe and easy to use

Closing

- Your ride to the future, and it's a tap away. Anywhere, anytime
- Looking to raise \$1M to do develop our first app
- 12-18 months: launch pilot app in Chicago and connect 1M riders in drivers

UberCab

Thank You!

Michigan Tech Week

October 1, 2024 | 3-4:30PM ET

ELab AI Launchpad

eLab AI Launchpad at Michigan Tech week is an AI Pitch Competition aimed at supporting early-stage AI startups in Michigan with the launch of their company. Selected participants pitch their company to a live audience and panel of judges, and the two most compelling companies will win investments.

Prize

The 1st and 2nd place winners will be awarded **\$50,000 or \$25,000 SAFE investments** (with a 20% discount and no cap) as prizes by eLab Ventures. Applicants accepted to pitch will each receive 2 free tickets to attend Michigan Tech Week.
